Subject: EPA Response to Navy's RTCs to ABL LTM Optimization Memo

Hi all,%

Please see the attached response letter to the RTCs received via email on Jan 23, 2009 regarding optimizing the LTM at ABL.

The hard copy is in the mail.

(See attached file: EPA RTCs letter (Jan 2009).pdf)

RE: Response to Navy's Responses to Comments on *Long-Term Monitoring Optimization Strategy, Sites 1, 5, and 10, Allegany Ballistics Laboratory, Rocket Center, West Virginia*;  
Technical Memorandum

Dear Mr. Helbling:

EPA has reviewed the Navy's responses to our comments on the above-referenced document and accept the responses regarding quality control procedures for the tri-quarterly events and five-year reviews. However, all data used to decide the groundwater remediation is complete must include the full list of VOCs and metals (site contaminants of concern) that are fully validated.

Thank you for the opportunity to provide comments. Should you have any questions or concerns, please contact me at 215.814.3377.

Sincerely,

Ji-Sun Yi
